

COMPANY PROFILE

One Partner for Electronics Engineering and Manufacturing

JieJia Intelligence operates with its headquarters in Suzhou and R&D; center in Shenzhen. Its coordinated manufacturing network supports customized PCBA services for smart mobility, medical equipment and industrial control.

From design to delivery

PCB design, PCB manufacturing, component procurement, SMT and through-hole assembly, inspection, testing and system integration are coordinated around the requirements of each project.

Built for high-mix projects

With 20 years of industry heritage and over 20,000 square meters of smart manufacturing facilities, JIEJIA focuses on small-batch agility and rapid delivery for low-to-medium volume electronics projects.

MANUFACTURING NETWORK

Three Coordinated Locations

Shenzhen / Rapid prototyping

Shiyan, Shenzhen. 2,800 square meters; 5 Samsung SMT rapid-prototyping lines, 2 DIP lines and 2 packaging lines. The integrated PCB, BOM and SMT workflow supports seven-day delivery for suitable projects.

Dongguan / Precision assembly

Dalingshan, Dongguan. 5,500 square meters; 8 Panasonic third-generation SMT lines supporting 01005 components and 0.3 mm-pitch BGA for automotive and communications products.

Suzhou / Production coordination

Wujiang Economic Development Zone, Suzhou. 6,400 square meters; 4 SMT, 2 DIP, 2 testing and 2 packaging lines. Applications include energy, automotive, medical electronics, robotics and industrial controllers.

Quality documentation

Review the ISO 9001, IATF 16949, ISO 13485, ISO 14001 and ISO 45001 certificates on the quality page for the certified entities, scopes and validity dates.
